

Part = conductor

Procedure 1: Announce the questions and then ask the nonconductors to write their answers

Procedure 2: Start the timer for 2 minutes

Procedure 3: Once the 2 minutes is up, call on any number within the range of the non conductors participating (so if there are 3 nonconductors you may call on any number from 1-3)

Procedure 4: Ask the non conductor called on to read their answers off of their sheet of paper to you

Procedure 5: Once they have read all of their answers, say “thank you” to them and call on the next non conductor by saying a different number

Procedure 6: Repeat procedures 1 - 5 until all non conductors have read their answers to you

Part = non conductor

NOTE: for this game you need a writing utensil and piece of paper

Procedure:

Do what the conductor tells you to do.
